CHIAVE DI LETTURA QUADRI ELETTRICI

Identificativo quadro elettrico (colore)

Progressivo quadro elettrico

PERTINENZA QUADRI ELETTRICI ESISTENTI

Per fare chiarezza all'interno della tavola si sottolinea che il colore che caratterizza i punti luce è identificativo del punto di fornitura. Questo significa che punti luce rappresentati dallo stesso colore sono, nello stato di fatto, alimentati dallo stesso quadro di comando. I punti luce per i quali non si conosce la fornitura o sono alimentati da pannelli fotovoltaici vengono, invece, così rappresentati:
